

THE CASCADE 2 GT

SOLAR HOT WATER STATION WITH TANKLESS GAS BACKUP

The Solar Professional's First Choice in
Energy Solutions Since 1978

Product Overview

The SunEarth Cascade 2 GT Solar Water Heating System utilizes SunEarth collectors and a ready to install, pre-engineered hot water station (HWS) designed with seamless installation in mind. Factory assembled using top-tier components and tested for hydraulic integrity, the Cascade 2 GT HWS contains all the components and safety devices necessary for SunEarth's high-performing drainback indirect system.

Featuring a brazed plate heat exchanger, adjustable three-speed pump and manufactured by SunEarth, the Cascade 2 GT is the installer's top choice.

KEY FEATURES

- Adjustable 3-speed Pump
- Easy-to-Read Liquid Crystal Display (LCD) Offers Insight into System Operation and Conditions
- Glass-Lined, Pressure-Rated Storage Tank
- Endless Hot Water

ABOUT THE SUNEARTH

Cascade 2 GT HWS

Continuing our commitment to performance, durability, and innovation with dedication to the service of professional contractors worldwide, SunEarth designed the Cascade 2 GT Solar Water Heating System with seamless installation in mind. As an industry leader since 1978, SunEarth products are built to withstand even the most demanding applications and are the longest-lasting, trouble-free source of hot water. The Cascade 2 GT offers a glass-lined steel tank, stainless steel heat exchanger plates, LCD control, and stainless steel circulator pumps.
