

# THE SOLARAY AC

## SOLAR HOT WATER STATION

The Solar Professional's First Choice in  
Energy Solutions Since 1978

## Product Overview

The SunEarth SolaRay AC is a ready to install, pre-engineered hot water station (HWS) that is designed with seamless installation in mind. Factory assembled using top tier components and tested for hydraulic integrity, the SolaRay AC HWS contains all of the components and safety devices necessary for SunEarth's high-performing SolaRay AC indirect glycol system.

Featuring an all copper, double-walled heat exchanger, an adjustable three-speed pump and manufactured by SunEarth, the SolaRay AC is the installer's top choice for solar hot water stations.

### KEY FEATURES

- Integrated 3-speed Pump
- Flow Meter with Balancing Valve
- Glass-lined and Pressure-tested Storage Tank
- Constructed from High-Temperature Polypropylene

## ABOUT THE SUNEARTH SolaRay AC HWS

SunEarth's SolaRay AC hot water station contains an integrated, three-speed pump, air separator and vent, flow meter with balancing valve, fill and purge valves as well as a pressure gauge and expansion tank connection. The solar station is protected by a 145 PSI pressure relief valve. Solar water heating should never be a gamble. With SunEarth's SolaRay AC hot water station, professional contractors rest easy. They know their customers will enjoy trouble-free and persistent energy savings for many years to come.

Scan the code to the right to visit our website for more information on the SolaRay series, including our product's specification sheet, installation guide, and details on our two-year limited warranty.

### PRODUCT SPECS
