

THE SOLFLUX CONTROLLER FOR SOLAR WATER HEATERS

The Solar Professional's First Choice in
Energy Solutions Since 1978

Product Overview

Take your water heating controls next level with SunEarth's SolFlux Controllers. This smart monitoring solution puts control of water usage in your hands and utilizes sensor devices, gateway connectivity, interconnected dashboards, and advanced algorithms. Monitor heat stored in your solar tank in real-time.

The SolFlux technology allows for all data to be available for two-way communication via our web or mobile application.

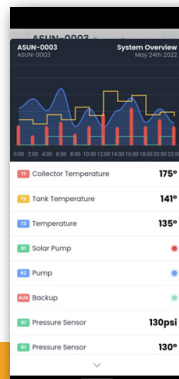

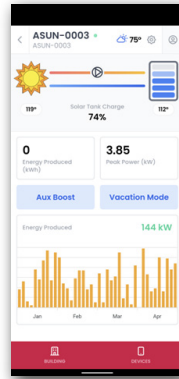

KEY FEATURES

- Remote Monitoring with the SolFlux App
- Compact Multi-part Designer Casting
- Remote Software Updates via Wifi Connectivity
- Screw Terminals for Rapid, Universal Installation

ABOUT THE SUNEARTH SolFlux Controllers

The SunEarth Solflux controller has a compact designer housing and variable input voltage range, which allows for universal use. These controllers feature two powered outputs that can also be configured along side 0-10 VDC or PWM output for controlling high-efficiency pumps and a non-powered relay switched output for additional controller functions of devices up to 20amps. The equipment is rounded off by three inputs for recording temperatures.

The integrated heat energy measure system allows the acquisition of numerical information on the solar yields of the system. All controller data is available for two-way communication via the SolFlux web and mobile application.

PRODUCT SPECS

Applications. The SolFlux Controllers are designed for SunEarth's solar water heating systems.

Systems. The Solflux controller includes five pre-programmed systems to enable universal usage.

Materials. Featuring wifi connectivity, LCD display, multi-functional buttons, and remote monitoring via our SolFlux mobile app.

Why SunEarth?

2-Year Warranty

The SolFlux controllers include SunEarth's 2-year product warranty to give you and your clients additional peace of mind.

Listed & Certified

SunEarth has the most certified ICC-SRCC systems.

American Made

Since 1978, SunEarth has continuously built industry-leading solar hot water collectors, components, and packaged systems.

SunEarth is Your #1 Choice for Solar Products.

With over 40 years of solar industry experience, SunEarth solar systems assist homeowners in reducing their energy bills.

Our products set the standard for quality and value in the North American market, so you can refer SunEarth products with confidence. Your clients will thank you.

Contact our team today to get started on your next solar installation.
